Industry Leader Fox Rehabilitation® Selects Raintree Systems® TherapyRehab Plus

*The Most Flexible, Comprehensive, and Scalable Practice Management and EMR
Solution Available for the Physical Rehabilitation Market*

CHERRY HILL, NJ and TEMECULA, CA – July 1, 2010 – Fox Rehabilitation®, a pioneer in home-based physical rehabilitation services, sought a well established, highly configurable software solution to meet its current needs and that could support their strategic growth plan. With over 300 clinicians, making house calls requires mobile, flexible, and reliable EMR/EHR system to maintain and improve current operational fundamentals. Raintree Systems® TherapyRehab Plus has the extensive configurable options needed to enable providers to access their patient appointments, treatment destinations, and even get driving instructions to each destination. Performing the services and completing the clinical documentation is done concurrently in real-time or through Raintree's mobile-mode.

“At Fox, we required a uniquely flexible electronic documentation system to keep up with the ever-changing trends in the housecall setting. Raintree's adaptability allows for Fox's specialized team of clinicians to create the most sophisticated documentation and clinical decision support system currently in use. With the unified and seamless software architecture, our clinicians will be able to spend more time focusing on achieving successful outcomes for our patients, rather than documenting.”

TIM FOX, PT, DPT, GCS

Doctor of Physical Therapy

Board Certified Geriatric Clinical Specialist

Executive Director

Fox Rehabilitation

The single-application, feature rich solution provides all revenue cycle management and clinical documentation features through an ultra-thin client and Raintree company philosophy of granting its customers the keys to drive the product is an empowering and differentiated approach.

“Here at Raintree, we believe that an operational tool should adapt to your operation and conform to your business principles. TherapyRehab Plus is an evolution of that belief and we are excited to be selected by Fox Rehabilitation as the only company out there that could meet their needs.”

Terrence D. Sims

Chief Operating Officer

Raintree Systems

About Fox Rehabilitation:

Fox Rehabilitation, a privately-held corporation headquartered in Cherry Hill, N.J., is the largest private practice of geriatric physical therapists, occupational therapists and speech therapists in the United States. Fox Rehabilitation makes 9,000 Geriatric House Calls™ each week, allowing their patients to relearn in the perfect environment – their home, assisted living facility, or adult day care center. For more on how we help patients restore their lives, see www.foxrehab.org.

About Raintree Systems, Inc.:

Founded in 1983, Raintree Systems, Inc., a privately-held corporation, is a provider of integrated patient registration, scheduling, electronic medical records, E-Prescribing, billing/collections and management reporting within a single application; empowering organizations to improve client/patient care, streamline workflows and enhance profitability. Raintree has a proven track record of success and customer satisfaction in Physical Rehabilitation, Surgery, Behavioral Health, Long-Term Pediatric Rehabilitation, Chiropractic, Oncology, and Billing Service industries, with more than 2,000 implementations and 14,000 concurrent licensed users deployed throughout more than 50 specialties. Our customer base includes commercial, non-profit and government agencies across the US and Canada. For more information about Raintree Systems, visit www.raintreeinc.com.
