Raintree Systems Adds Clinical Research and Tracking Capabilities to RheumDoc Office Plus EMR & Practice Management Software

Raintree Systems announces at the American College of Rheumatology (ACR) 2015 Conference that it has added advanced features and functionality to its EMR and Practice Management software to assist Rheumatologists with patient and payment tracking for clinical research trials

Temecula, CA: Raintree Systems is proud to announce the development of a Clinical Research and Patient Tracking Module to assist Rheumatologists participating in clinical research trials. RheumDoc Office Plus is the first Rheumatology-specific EMR and Practice Management software with features and functionality to address the needs of Rheumatologists participating in clinical research trials. These new advance features will allow Rheumatologists to:

- Query patient records to determine eligibility for a specific clinical trial, based on protocols
- Track every visit to meet the requirements for the study
- Track patient payments (Cling Card)
- Track the budget for the trial
- Run advanced reports based on the clinical trial, visits, and outcomes

About RheumDoc Office Plus: RheumDoc Office Plus by Raintree Systems is a comprehensive, fully integrated Practice Management and Electronic Medical Record (EMR) software solution designed exclusively for Rheumatology practices. RheumDoc Office Plus was developed with Rheumatology specific workflows, which allow rheumatologists to maximize face-to-face time with patients, implement superior practice management and meet quality measures. RheumDoc Office Plus provides a robust integrated Revenue Cycle Management solution that will increase efficiency, and maximize reimbursements through advanced analytics and reporting. www.raintreeinc.com/rheumatology-emr

Programmed DAS 28 ESR, DAS 44 ESR and HAQ calculators

- Preset joint homunculus for rapid tabulation of swollen and tender joint counts
- Rheumatology specific problem lists, order sets and assessment
- Detailed rheumatology procedures for aspirations, injections and infusions
- Automated population of ICD 10 Billing codes based on documented procedures

About Raintree Systems: Raintree Systems is a dedicated group of people with a passion to solve the real-world problems of businesses and individuals working, managing and running offices in a specialized field of medicine. For over 30 years, our focus has been to build software and service products and solutions that make a positive impact on medical professionals as well as the healthcare industry. Our products are designed to bring the power of software and technology to specialized medical fields to enhance and extend the skills of medical professionals in serving their patients. www.raintreeinc.com
